Mark, the plans are conceptually OK. Only minor details prior to permit issuance. Applicant should apply ASAP for a permit. No work prior to permit issuance. Thanks Much! Hope all is well.

Rich Burns, Permiteer

myra,

after we talked i remembered what we told Copolla. I told him to get the revised plans in with the corrections made per my last comments and we would do the letter to DOT. The plans he had at the 1 Oct worksession were correct. If you have plans from then, here is the letter. If the plans were not revised after the September meeting (his plan was dated 9/10) you have the wrong plans.

mark
